Buzz offers distinctive shows aimed at a younger audience called "musitheatrical shows". The musical adventure proposed by Buzz stimulates curiosity, creativity and the development of a critical sense in primary and secondary level students. At the same time, Buzz encourages its young public to develop an interest in learning music

Buzz has prepared teacher's manuals for each show, designed to help introduce the themes of the presentation to students before the performance, and discuss ideas learned and experienced in class, afterwards.

These educational adventures are presented entirely at your convenience. Buzz makes all necessary arrangements and provides all the equipment required for each musical event.
